**“A Resolution to Request More Timely and Consistent Use of E-College by  
Professors, Especially to Report Grades”**

Whereas: The Improve TCU Survey conducted by the TCU House of Student  
Representatives Student Experience Committee asked students about the use of  
E-College by professors, and

Whereas: The results of the survey showed that approximately 28 percent of the 1,401  
students surveyed responded that their professors do not use E-College enough,  
and

Whereas: The results of the survey showed that at least 20 percent of students surveyed  
from each academic college responded that their professors do not use E-  
College enough, and

Whereas: Most notably, approximately 38 percent of students surveyed from the AddRan  
College of Liberal Arts responded that their professors do not use E-College  
enough, and

Whereas: The statistics cited above demonstrate that the sample of the TCU student body  
represented by the survey expressed a clear desire for more E-College use by  
professors, and

Whereas: The timely and consistent use of E-College, especially the grade reporting  
feature, would allow students to know their current grade in each class;  
therefore

Let it be resolved by the House of Student Representatives at Texas Christian University:

- (1) We encourage timely and consistent use of E-College by professors  
campus wide, especially to report grades.
